Mohamed Wael

Frontend Engineer

+20106733 3964 | mohamedwaeltorad@gmail.com | LinkedIn | GitHub | Portfolio | Cairo, Egypt

PROFESSIONAL SUMMARY

Frontend Engineer with 2+ years of experience crafting accessible, performant, and pixel-accurate web interfaces. Proficient in React, Next.js, TypeScript, and Angular, with hands-on experience maintaining component libraries, implementing state management (Redux Toolkit), and optimising Core Web Vitals. Delivered 10+ projects across SaaS, e-commerce, and mobile — in professional roles and as a freelancer — working closely with design and product teams across async, remote environments. Strong design sensibility and a test-and-learn approach to shipping high-quality UI.

PROJECTS

Smart Clinic — Medical SaaS Platform (Dashboard · Web · PWA) Live | Web | Dashboard

Next.js 14 · React · TypeScript · Firebase · Tailwind CSS · Paymob API · PWA · OpenRouter LLM API

- Built 3 portals (Patient, Doctor, Clinic ERP) with 70+ features and hierarchical RBAC — pixel-accurate implementation of design specs across all breakpoints.
- Engineered reusable component library and bilingual RTL/LTR UI system; implemented PWA with offline mode and push notifications for Core Web Vitals compliance.
- Integrated OpenRouter LLM API for AI-driven patient follow-ups, Paymob payment gateway, real-time Firestore chat, and ICD-10 E-Prescription system.

ResumeAI — AI-Powered Resume Builder SaaS Live | GitHub

Angular · TypeScript · Firebase · Tailwind CSS · OpenRouter LLM API · Angular SSR

- Delivered 35+ fully customizable CV templates with live preview, drag-and-drop section reordering, and multi-format export (PDF via html2canvas + jsPDF, Word via docx.js).
- Built AI-powered ATS Analyzer for resume-job match scoring and keyword recommendations; integrated Voice Interview and AI Mock Interview modules.
- Optimised for performance and SEO using Angular SSR, lazy-loaded routes, and code-splitting — measurably improved Lighthouse scores.

Eleve — Premium E-commerce Platform Live | GitHub

Next.js 14 (App Router) · React 18 · Redux Toolkit · Tailwind CSS · Firebase · Paymob

- Built high-end storefront with animated hero carousel, advanced category filtering, and Redux Toolkit state management for cart, wishlist, and session persistence.
- Developed fully responsive admin dashboard with CMS, full CRUD operations, and seed data tooling for rapid QA testing cycles.

Amazon Clone — Full-Stack E-commerce Application Live | GitHub

React.js · Bootstrap · Firebase

- Full-featured e-commerce app with auth, product management, shopping cart, and order tracking.
- Team Lead: divided tasks, tracked progress via Trello, and conducted code reviews during DevWave internship.

EXPERIENCE

Frontend Engineer — Huma-volove Jan 2026 – Mar 2026

- Built responsive and scalable web applications using Next.js, React, and TypeScript; contributed to shared component library and design system evolution.
- Implemented state management solutions, optimised bundle size, and integrated RESTful APIs with robust authentication workflows.
- Collaborated cross-functionally with design and product teams in an async remote environment, participating in code reviews and engineering discussions.

Freelance Frontend Developer 2024 – Present

- Delivered end-to-end frontend applications for clients across SaaS, e-commerce, and marketing — from design spec to Vercel deployment.
- Managed projects asynchronously with clients across time zones; maintained clear written communication throughout build cycles.

Full-Stack Developer Intern — CodVeda (Remote) Sep 2025 – Nov 2025

- Developed Weather App, Data Management System, and Landing Page using React, Node.js, and Firebase with clean API integrations.

Frontend Developer Intern — DevWave Jun 2025 – Aug 2025

- Led team building full-stack Amazon Clone; managed workflow via Trello, conducted code reviews, applied Git version control best practices.

SKILLS

Languages & Frameworks: JavaScript, TypeScript, React, Next.js 14, Angular, Vue (familiar), HTML5, CSS3, Tailwind CSS, Bootstrap

State Management: Redux Toolkit, React Context API, NgRx (Angular)

Performance & Accessibility: Core Web Vitals optimisation, WCAG awareness, PWA, SSR (Next.js / Angular SSR), lazy loading, code-splitting, bundle optimisation

Tools & Practices: Git, GitHub, Vite, REST APIs, Firebase, Agile, Trello, VS Code, Vercel, code reviews

Mobile: React Native, Expo

EDUCATION

Bachelor of Computer Science — Arab Open University, Egypt

CERTIFICATIONS

Responsive Web Design (FreeCodeCamp) · Front-End Developer (HackerRank) · Clean Code Practices (MHRATECH) · React.js (Satr) · Git & Version Control (Satr) · Full-Stack Developer (The Odin Project) · Node.js (FreeCodeCamp)

LANGUAGES

Arabic — Native | **English** — Professional Working Proficiency
